

Technical Data Sheet

Isopropanol 400ml, Artikel 704.400

Product description

ISOPROPANOL is a universal and mild cleaner with excellent wetting and dissolving ability. This guarantees quick and reliable removal of contaminations such as dust fingerprints, oil and all kind of light dirt.

Area of use

Effective cleaning of electrical and mechanical parts, cleaning of soldering residues and screen-printing stencils. Specially developed for cleaning of components, equipment's, devices, precision instruments and sensitive optical equipment. Also good for cleaning of audio and Hi-Fi equipment and CD's.

Benefits

ISOPROPANOL does not attack any material and evaporates very quickly without leaving any residues. With his special cleaning character ISOPROPANOL removes grease, oils and ionic impurities.

Storage / Shelf Life

Shelf life is 2 years if stored correctly.

Technical Data

Description:	Tin-plate can with sprayhead and cap
Colour:	Colourless, Clear
Smell:	Alcohol
Density:	0,78g/cm ³
Evaporation:	Rapid, complete
Residue:	None
Material computability:	Very good
Purity:	99,9%

NUFESAelectronics.
