Lumi™ task lamp
D/E35500

Our task lamps are designed to offer professional users the very best light quality. Combining modern aesthetics, high performing ergonomics and optimally adjustable light intensity over a wide area, they can be positioned exactly where required providing the right amount of light for any task. They include the following features:

- **The latest innovative SMD LED technology & advanced design** - To achieve maximum light output that is dimmable, energy saving and long lasting
- **Daylight colour balanced light** - Exceptional clarity from 6,000°K daylight SMD LEDs with high contrast and dimming control for detailed inspection
- **High performing ergonomics** - Effortless movement and accurate positioning for perfect viewing of detail
- **Robust and high performance materials** - Materials specially selected for their strength, performance and reliability in demanding environments
- **ESD safe design** - For work in electrostatic protected areas our ESD models use carbon fibre and special conductive coatings
